## DECLARATION

In Re the Application of:

Patent Titled: A Method of Neuromodulation Therapy  
Inventor: LESLIE S FEINBERG  
Application No. 10.662,960

Dear Sir:

I, Jennifer L. Edwards, Ph.D., a citizen of the United States of American, declare under penalty of perjury:

I reside at: 3774 Mountainside Trail, Evergreen, Colorado 80439

I have reviewed NMT: The Feinberg Technique, teaching the protocols of neuromodulation therapy. I have taken both the basic course (November, 2002 in Southern California) and the advanced course (November, 2003 in Miami, Florida).

The teachings and protocols taught by NMT: The Feinberg Technique, effectively teach a useful method of neuromodulation therapy as disclosed.

I believe that the disclosed neuromodulation therapy is useful in the health care field.

I have been working with Mark Hochwender and Les Feinberg over the last several years, and they have used NMT with both me and with my husband.

\*A year ago, the doctor said that I had some precancerous lesions on my right arm. I mentioned that to Mark. I felt the arm prior to treatment, and the lesions were there. He used NMT on the arm, and after the treatment, the lesions had disappeared, and the arm was smooth.

\*My husband had acid reflux disease, we believe, in late August. He had awakened at 3 AM with severe stomach pains, and we had gone to the emergency room of the hospital. The doctors said that nothing terrible was wrong and sent him home, giving him some medicine. Still, he had the severe pain. Dr. Feinberg worked with him that evening, and he was instantly better—well enough to travel to Hawaii the next morning and feel fine.

App# 10/662,960  
Declaration # 7

\*I have a tendency to get a lung infection that is called BOOP. The first time I got it in 1999, I ended up in the hospital on oxygen and on 250 mg of Prednisone every six hours. Needless to say, I panic when I start getting a cold and fear that I am going down that path. I was extremely sick with it in January, 2003, and didn't want to go to the doctor because I knew that I would have to go on oxygen. It had been difficult to get in to see Mark, as he is very busy and doesn't have a lot of openings in his calendar, so the disease had progressed. After three NMT treatments with him, I was totally well. Another time when I was very sick with it, I worked with Dr. Feinberg, and he helped me get well.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. 1001 and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Signed: Jennifer L. Edwards Date: 1/27/05
